2. What to Say

The 15-second pitch

Most people don't have a traffic problem. They have an offer problem. OfferConverter AI asks you simple questions about your offer, then builds your whole sales system for you: sales page, webinar script, emails and ads, all saying the same thing.

The 60-second story

I used to think I needed a pricey copywriter and a tech team to launch anything.

Then I found OfferConverter AI. You answer plain-English questions about what you sell and who it's for. It turns your answers into your Conversion DNA, the core of your offer, and then builds every piece you need to sell it: the page, the presentation, the email follow-up and the ads.

Everything matches, so buyers hear one clear message from first click to checkout. If you've got an offer that deserves more sales, start here: **[paste your affiliate link]**

Rules for honest promotion

- Never promise income, results or a specific number of sales.
- Only share results you personally got, and can prove.
- No spam: no unsolicited email, SMS or mass DMs.
- Never run paid search ads on the name "OfferConverter".

3. Email Swipes

Replace the words in [brackets] with your own, then send to your own list.

Email 1 — The expensive problem

Subject: you don't need a $5,000 copywriter

Hey [first name],

If you've ever stared at a blank sales page wondering what to say, this is for you.

Most of us think the fix is hiring a copywriter, a funnel builder and an ads person. That gets expensive fast, and their pieces rarely match.

I've been using OfferConverter AI. It asks you plain questions about your offer, then builds your sales page, webinar script, follow-up emails and ads from the same core message.

Email 2 — The 5 steps

Subject: the 5 steps between your offer and your sales

Hey [first name],

Here's the simple path OfferConverter AI walks you through:

1. Answer questions about your offer and your buyer.
2. Get your Conversion DNA: your big promise, your buyer's real problem and your unique method.
3. Get a readiness score showing what's strong and what's missing.
4. Build your assets: sales page, webinar, emails and ads.
5. Track your numbers and fix what isn't converting.

No tech skills. No guessing. See it here: **[paste your affiliate link]**

Email 3 — The honest question

Subject: is your offer the problem?

Hey [first name],

Quick question: when your launch was quiet, did you blame the traffic?

Often the real issue is the offer itself: the promise isn't clear, the buyer can't see why it's different, or the next step is confusing.

OfferConverter AI walks you through your offer question by question and shows you exactly what to tighten before you spend another dollar on ads.

4. Short Video Scripts

For Reels, TikTok and YouTube Shorts. 30 to 45 seconds each.

Video 1 — The blank page

On screen: "Stop writing sales pages from scratch."

Say: If you've got an offer but no idea what to put on the sales page, watch this. I answer a few questions about what I sell, and OfferConverter AI builds my page, my emails and my ads from the same message. Link in my bio.

Video 2 — Traffic isn't the problem

On screen: “More traffic won’t fix a confusing offer.”

Say: I used to think I needed more views. What I needed was a clearer offer. This tool scores how ready my offer is and tells me what’s missing before I spend on ads. Link in bio if you want to check yours.

Video 3 — Everything matches

On screen: “My ad, my page and my emails finally say the same thing.”

Show: scroll through your own sales page, then an email, then an ad.

Say: Buyers get confused when every piece says something different. OfferConverter AI builds them all from one core message, so it all lines up. Link in bio.

5. Social Posts

LinkedIn / Facebook

Most offers don’t fail because of traffic. They fail because the buyer can’t answer three questions fast:

- What do I get?
- Why is this different?
- What do I do next?

I’ve started building my offers with OfferConverter AI. It asks you the right questions, then builds your page, webinar, emails and ads around one clear message.

If your offer deserves more sales, start here: **[paste your affiliate link]**

X / Threads (post as a thread)

1/ Every offer needs 5 pieces that all say the same thing.

2/ A clear core promise. Your Conversion DNA.

3/ A sales page that explains it simply.

4/ A webinar or video that builds belief.

5/ Follow-up emails for people who didn't buy yet.

6/ Ads that bring the right people in.

7/ I build all five with OfferConverter AI: **[paste your affiliate link]**

6. Direct Message Scripts

Only message people you already know or who asked for help.

Warm DM — a friend or peer

Hey [name]! I saw you're working on [their offer]. How's it going so far?

(If they mention slow sales:) I hit the same wall. What helped me was getting my offer clear before pushing more traffic. I've been using a tool that asks you questions and builds the sales page, emails and ads for you. Want the link?
